

Alarm Detection Systems, Inc.

Offering the very best in commercial and home security for over 50 years

Founded in 1968, Alarm Detection Systems is one of the largest privately owned security companies in the nation. We are conveniently located in Aurora, Illinois. Alarm Detection Systems has been a trusted member of the NetOne since its inception. While the technology in the industry has changed, our commitment to offering value and service to customers has not. We provide state-of-the-art alarm system installation, monitoring, and related testing services.

Our Business:

- Employs over 300 people
- Continues to have a strong family tradition (12 families make up 15% of the employee base)
- Has received multiple awards for its UL Listed/ FM Approved Central Station
- Owns and operates a proprietary AES wireless mesh network
- Offers same day service and repair (including weekends and holidays)
- Utilizes a fleet of over 100 vehicles to conduct day-to-day activities
- Understands that unmatched customer service and support leads to years of retention and opportunities for future business

We Are Local Security.
